

Progress Report #6

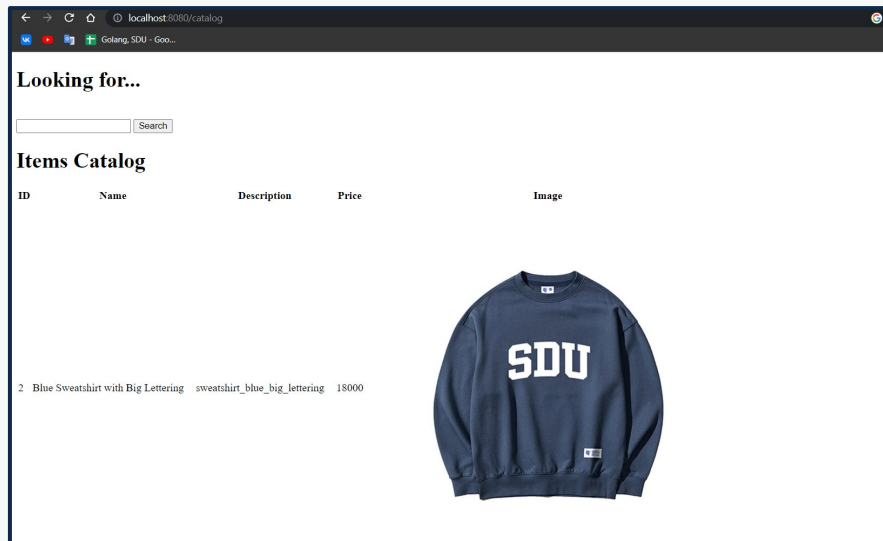

Yerzhanov Beksultan 200103513

Tashim Darkhan 200103208

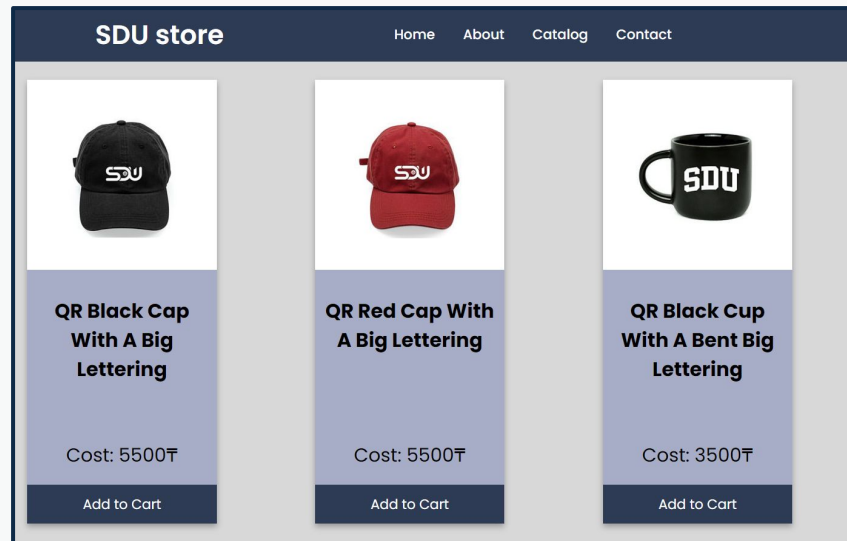

We add design to our Catalog Page

Before

Now

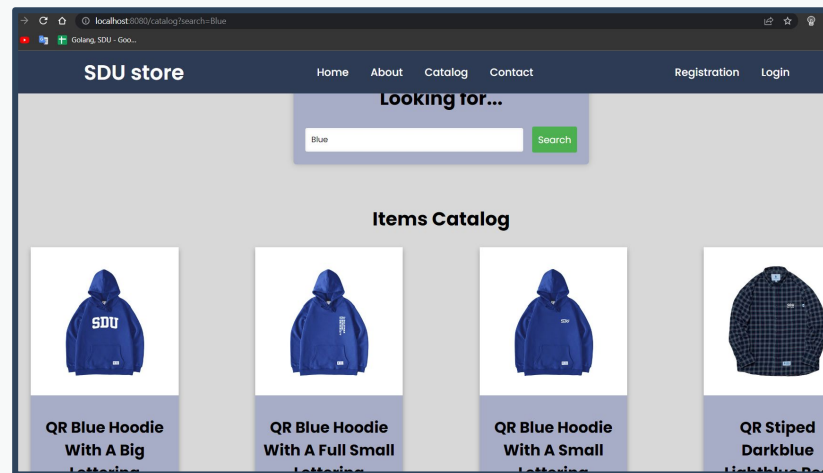

Also, we fixed search result

Before

Now

Added prevention from re-registration and re-authorization

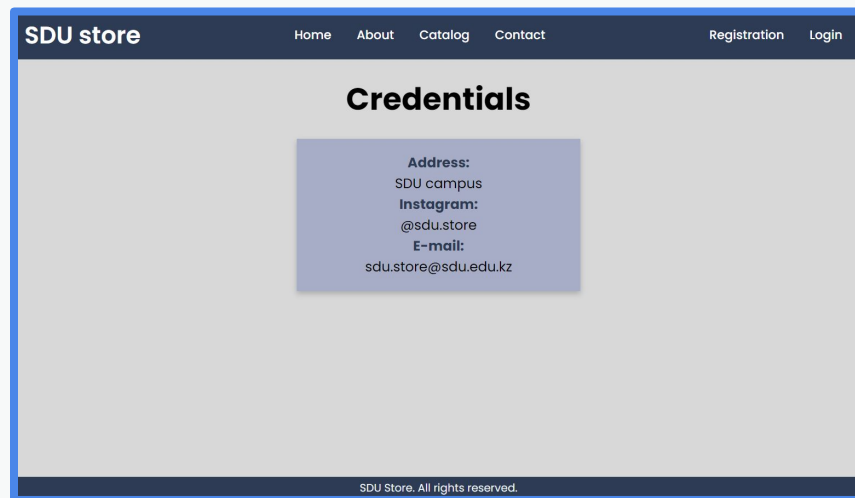

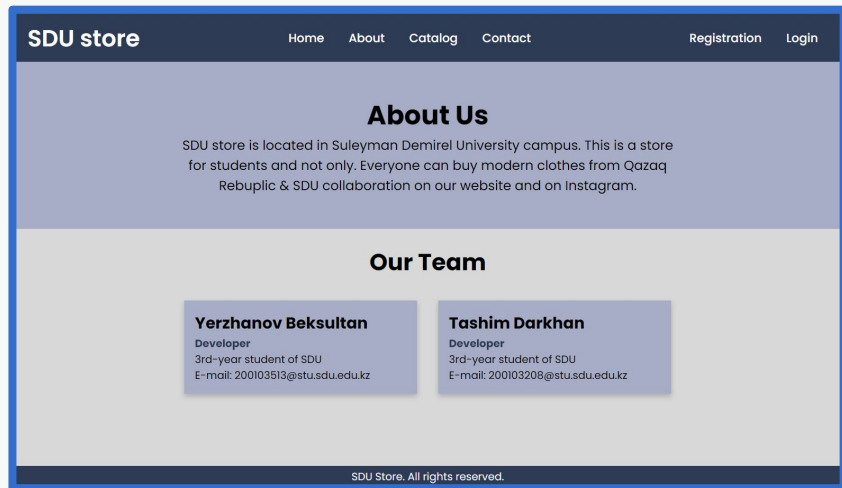

We use “github.com/gorilla/sessions” library for that purpose

```
func registerHandler(w http.ResponseWriter, r *http.Request) { 1 usage  👤 Yerzhanov Beksultan
    session, _ := store.Get(r, name: "session")

    if session.Values["entered"] != nil && session.Values["entered"].(bool) {
        http.Redirect(w, r, url: "/home", http.StatusSeeOther)
        return
    }
}
```

```
session.Values["entered"] = true
err = session.Save(r, w)
```

Also we added “about” and “contact” pages

For mid 2, we started to adding rating system

SDU store[Home](#)[About](#)[Catalog](#)[Contact](#)[Registration](#)[Login](#)

**QR Black Cap
With A Big
Lettering**

★★★★★

Cost: 5500₹

**QR Red Cap With
A Big Lettering**

★★★☆☆

Cost: 3500₹

html and css for rating system

<> catalog.html x

```
<div class="serv">
  <ul>
    {{range .}}
      <li>
        <div class="card">
          
          <div class="item-text">
            <h1 class="item-name">{{.ItemName}}</h1>
          </div>
          <br>
          <div class="star-wrapper">
            <a href="#" class="fas fa-star s1"></a>
            <a href="#" class="fas fa-star s2"></a>
            <a href="#" class="fas fa-star s3"></a>
            <a href="#" class="fas fa-star s4"></a>
            <a href="#" class="fas fa-star s5"></a>
          </div>
          <br>
          <p class="price">Cost: {{.ItemPrice}}T</p>
          <br>
          <p>
            <button>Add to Cart</button>
          </p>
        </div>
      </li>
    {{end}}
  </ul>
</div>
```

main.css x

```
.star-wrapper {
  direction: rtl;
}

.star-wrapper a {
  font-size: 2em;
  color: #fff;
  text-decoration: none;
  transition: all 0.5s;
  margin: 4px;
}

.star-wrapper a:hover {
  color: gold;
  transform: scale(1.3);
}

.s1:hover ~ a {
  color: gold;
}

.s2:hover ~ a {
  color: gold;
}

.s3:hover ~ a {
  color: gold;
}

.s4:hover ~ a {
  color: gold;
}

.s5:hover ~ a {
  color: gold;
}
```
